### About me:

Higher medical education. Experience in medicine, business, medical tourism. I always liked the IT sphere. I decided to change my life and achieve success in a new business. I am looking for a team in which I can be useful, and where I could acquire new knowledges and skills.

I am ready to quickly learn any other framework, technology and raise the level to the required level.

Hobbies: sports, modern technologies.

In good physical shape, I lead an active lifestyle.
